About Wipro.

We're one of the largest, most trusted, purpose-driven technology companies in the world, building innovative solutions that address our clients' most complex digital transformation needs. Our global team of engineers, strategists, technologists, and design thinkers help enterprises achieve greater speed, agility, resiliency, and security in a rapidly changing world.

But more than that, Wipro is the embodiment of customer-centric excellence and the definition of tech for good. 66% of Wipro's economic interest is held by a philanthropic trust — the Azim Premji Foundation — which serves some of the most disadvantaged populations in the world. When clients work with us, they're not just transforming their business. They're helping change the world.

Building a Better World.

The belief that our purpose fuels our business and our business fuels our purpose has been our guiding force since the very beginning. We commit ourselves to be a catalyst in the building of a just, equitable, humane, and sustainable society. As one of the ten founding members of Transform to Net Zero, our commitment is deep and authentic. We realize it by helping clients turn sustainability ambition into action.

60% Renewable energy (% of total consumption)

97% Waste avoided from being sent to landfills

37% Water recycled (% of total water consumption)

2024 marks our 79th anniversary of being in business. We are proud of this amazing milestone, which is a testament to the hard work, commitment, and creativity of our employees. They are the driving force behind Wipro's success.

Wipro's Brand Voice

Wipro is a collective of smart yet approachable industry-leading consultants and business transformation experts backed by a vast pool of technical talent. We should sound like the former, while suggesting that we also have the capabilities of the latter. The following principles will get us there.

Be clear and conversational:

We simplify complexities, and don't get bogged down in technical details. We try to be conversational and, at times, even entertaining.

Be confident:

We are smart, authoritative, and trustworthy. We deeply understand technology, but respect people who might not understand technology as well as we do.

Be optimistic:

We emphasize that the thorniest problems are solvable and sketch visionary ambitions for the future.

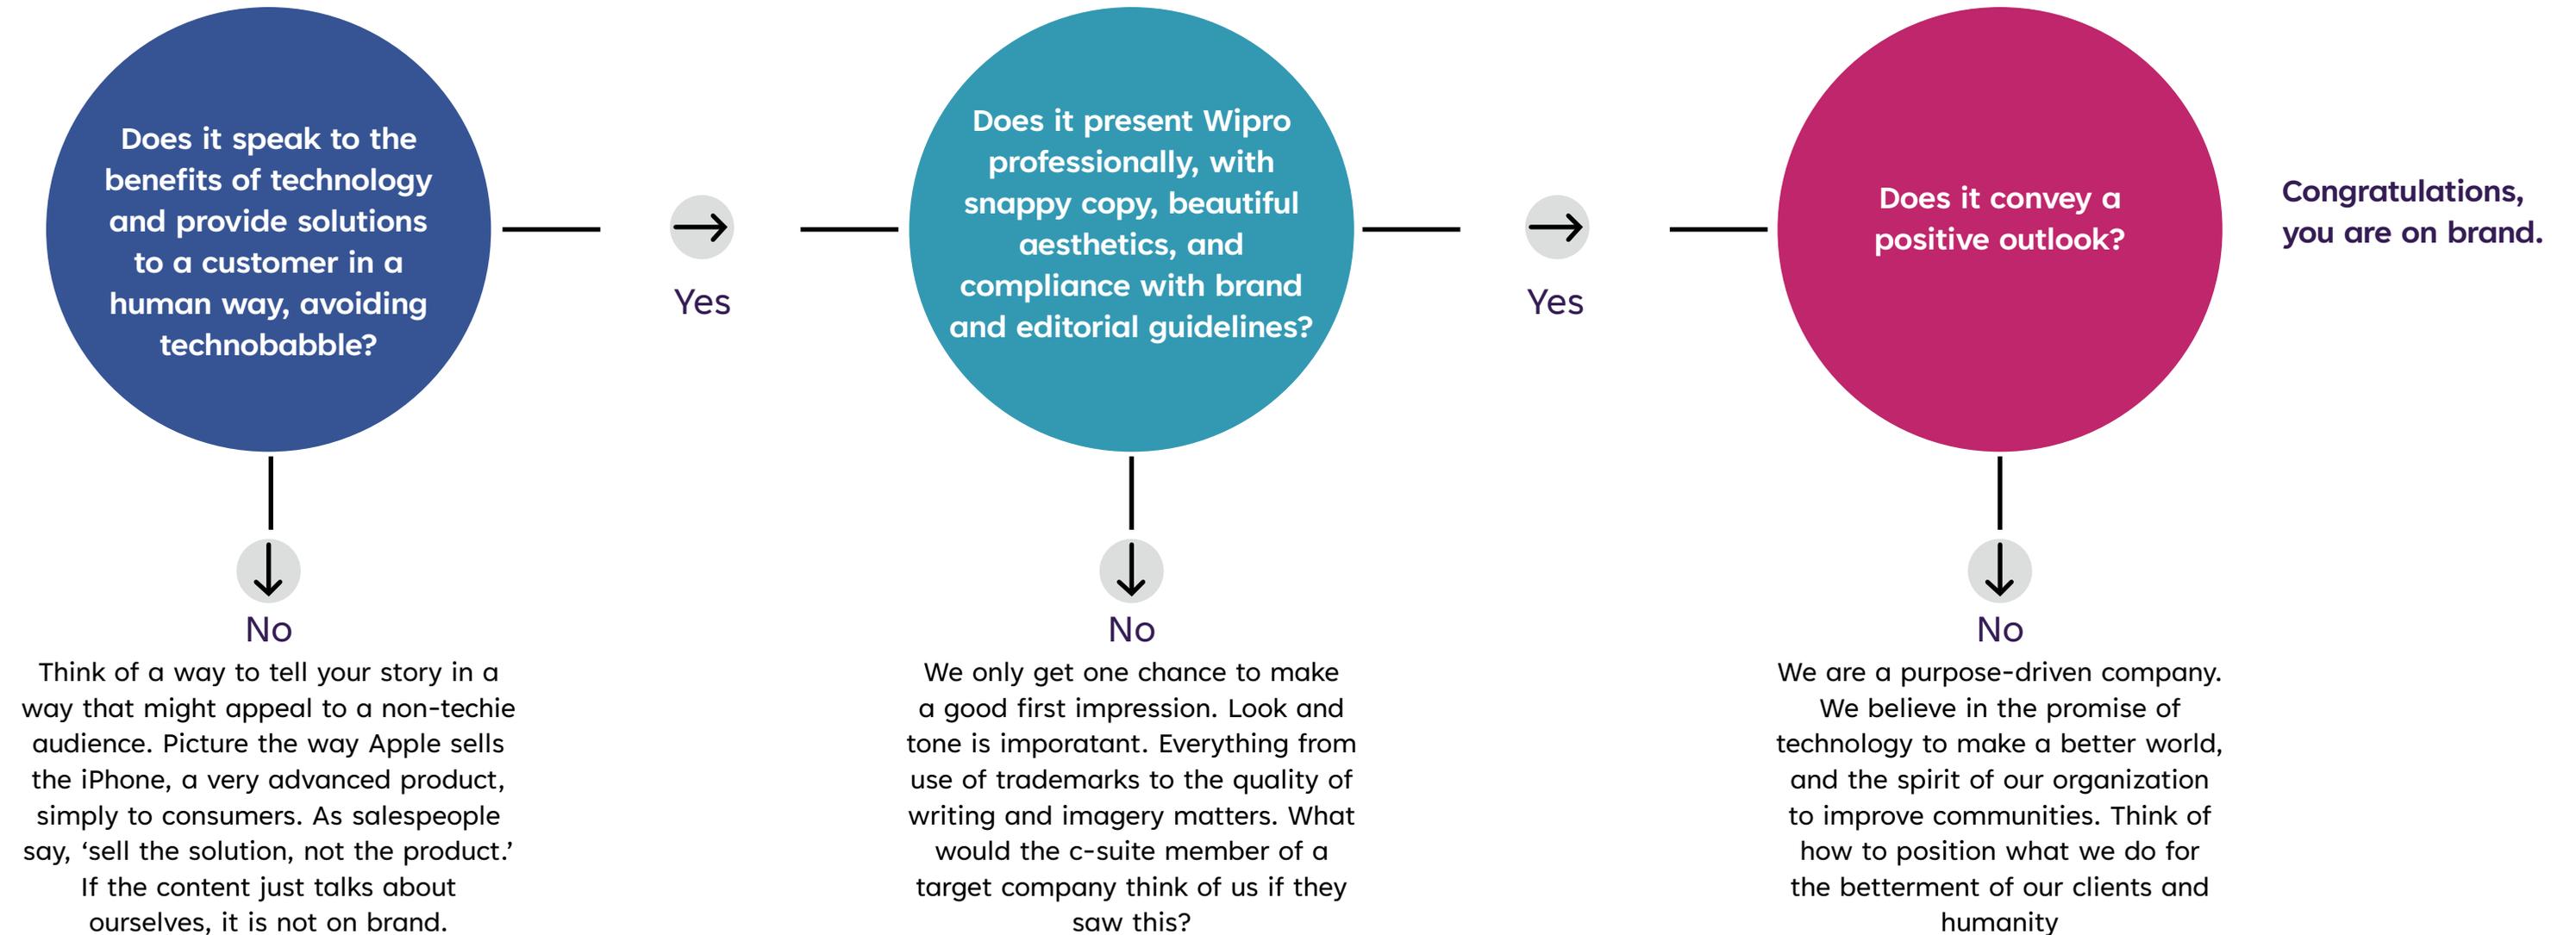

Be insightful:

We understand what's happening in all industries and regions, and show global business leaders new ways to achieve value. We don't sell; we demonstrate and inspire.

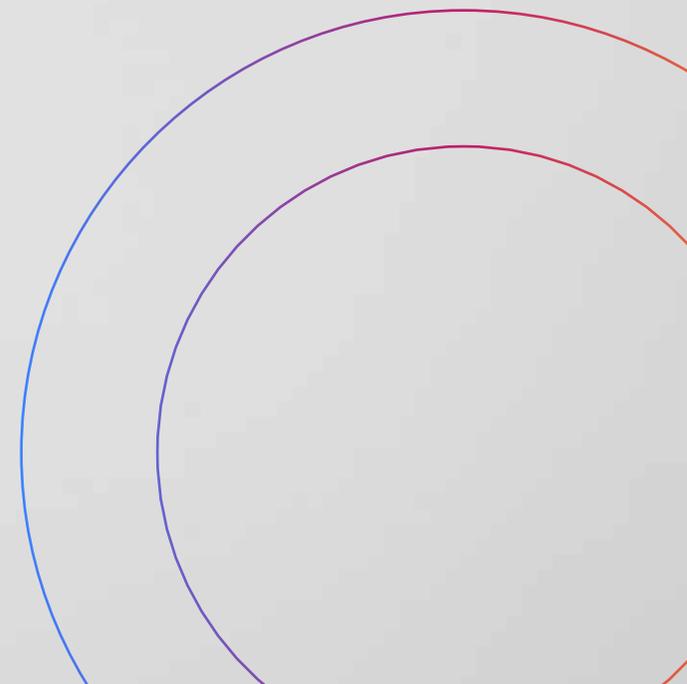

Editorial.

Is it on brand?

Brand Architecture.

Wipro Brand Mark

Our multicolored brand mark demonstrates our connected world and modernizes the colors from our brand heritage.

The blue of the word mark creates a sense of reliability and authority.

The multicolored dots are associated with energy and optimism.

Primary

Secondary

Wordmark

For very small spaces, an exceptional-use word mark is available.

The primary brand mark in full color should always be used if possible.

Monochrome black and white brand marks can be used in exceptional cases where production or contrast limitations prevent the use of the primary brandmark.

Brand Mark Options

The primary brand mark in full color should always be used if possible. The following priority guide describes alternatives to the primary brand mark, in exceptional cases where production or contrast limitations prevent the use of the primary brand mark.

Monochrome black and white brand marks are also recommended on branded merchandise where the primary brand mark cannot be reproduced or on colored (non-white) artifacts. Additionally, it can be supplied to Wipro's clients and partners for use in their collaterals, where the primary brand mark is unsuitable due to insufficient contrast with their chosen backgrounds.

Wordmark Options

For very small spaces, an exceptional-use word mark is available. The minimum size is 10mm (1cm) in width when printing, and 35 pixels when used on screen.

This is usually only needed on presentations.

Brand Mark Spacing

To ensure maximum prominence, clarity and legibility for the Wipro brand mark, an area of clear space has been defined that should remain free of any elements such as text, graphics or busy imagery.

The minimum clear space for all brand mark versions is defined by the height (100%) of the letter 'o'. However, where possible, this space should be increased.

Wipro Ambitions Realized logo

Use the Wipro Ambitions Realized logo when your messaging reflects the latest “Ambitions Realized” theme of the Wipro Brand. Monochrome black and white versions can be used where there are production or contrast limitations.

Ambitions Realized.

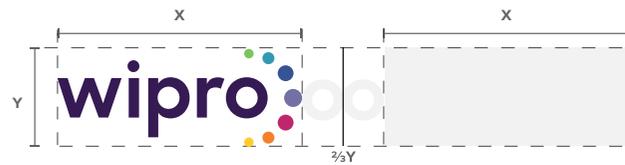

Ambitions Realized.

Co-branding (with secondary logo)

The secondary logo is the preferred Wipro logo for all lockups.

Horizontal lockup

Co-branding is a marketing partnership between Wipro and another brand. It can encompass several different types of branding partnerships – client- specific collaterals, joint ventures, and charity events, for example. Corporate sponsorships (e.g. industry events) are generally not considered partnerships.

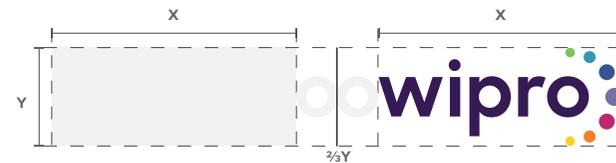

I. When Wipro is the lead brand, vertical divider line is 2/3rd the height of Wipro brand mark, the space between logos will be equal to 2 'o's of Wipro brand mark, and the co-branding logo may not exceed the area dictated by the Wipro logo.

II. Height of the circular partner logo will be equal to Wipro brand mark.

II. Height of the partner logo will be equal to Wipro word mark.

III. When the partner logo is the lead brand, their logo should be placed on the left side of the lockup. The co-branding logo may not exceed the area dictated by the Wipro logo

Vertical lockup

In most instances, a landscape orientation of the co-branding lockup is most appropriate. However, when co-branding lockups are applied to vertical shapes, a stacked arrangement is recommended. The partner logos should be vertically centered.

I. When Wipro is the lead brand, horizontal divider line is 2/3rd the width of Wipro brand mark, the space between logos will be equal to 2 'o's of Wipro brand mark, and the co-branding logo may not exceed the area dictated by the Wipro logo.

II. Height of the partner circular logo will be equal to Wipro brand mark.

III. Height of the partner word mark will be equal to Wipro word mark.

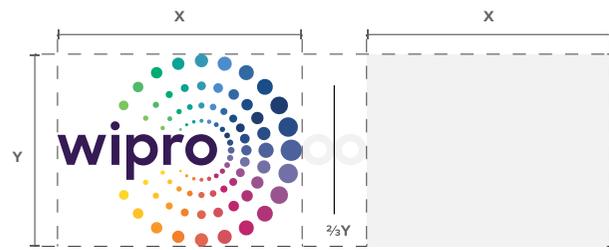

IV. When the partner logo is the lead brand, it should be placed on the top.

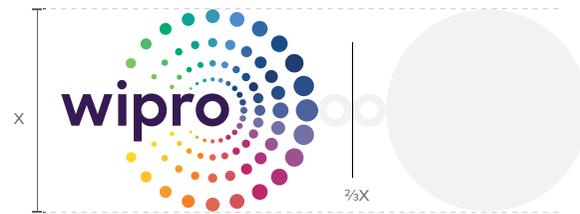

Co-branding (with primary logo)

Horizontal lockup

Co-branding is a marketing partnership between Wipro and another brand. It can encompass several different types of branding partnerships – client- specific collaterals, joint ventures, and charity events, for example. Corporate sponsorships (e.g. industry events) are generally not considered partnerships.

I. When Wipro is the lead brand, vertical divider line is 2/3rd the height of Wipro brand mark, the space between logos will be equal to 2 'o's of Wipro brand mark, and the co-branding logo may not exceed the area dictated by the Wipro logo.

Wipro Sub-brands

Other branded solutions and products from Lab45, use a single-color (e.g. black/white, in the case of cybersecurity) or light blue (e.g. data & analytics) to differentiate them from the primary GBLS. This category also includes certain functions for Wipro, such as Wipro Cares & Wipro Ventures.

Preferred Color Pairings

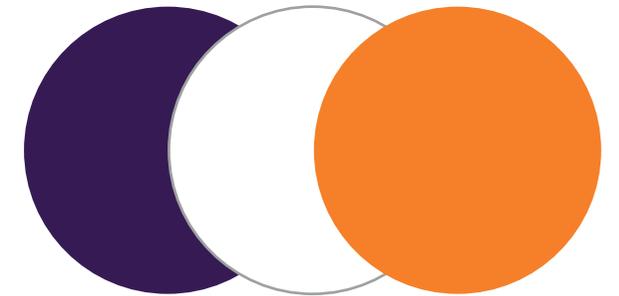

A selection of our brand colors that pair well together and pass universal accessibility testing.

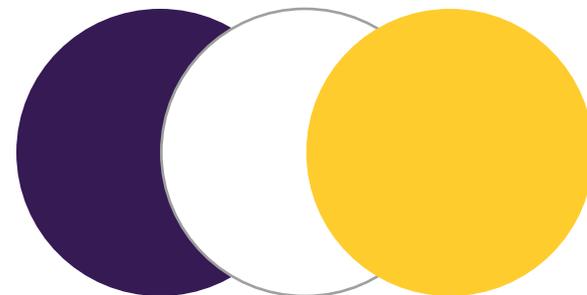

Wipro Blue + White + Blue Green

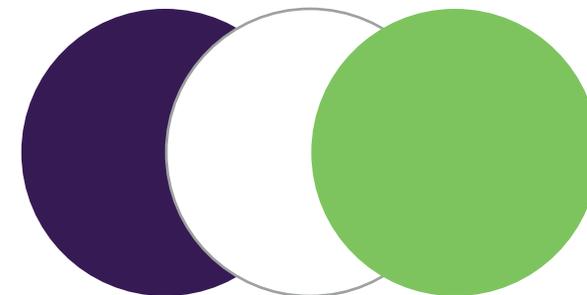

Wipro Blue + White + Strong Pink

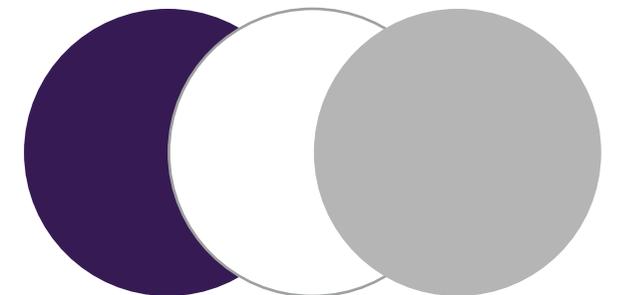

Wipro Blue + White + Orange

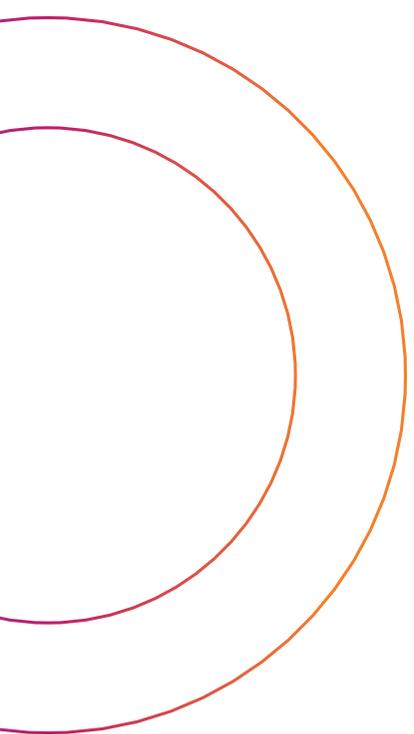

Wipro Blue + White + Yellow

Wipro Blue + White + Light Green

Wipro Blue + White + Gray

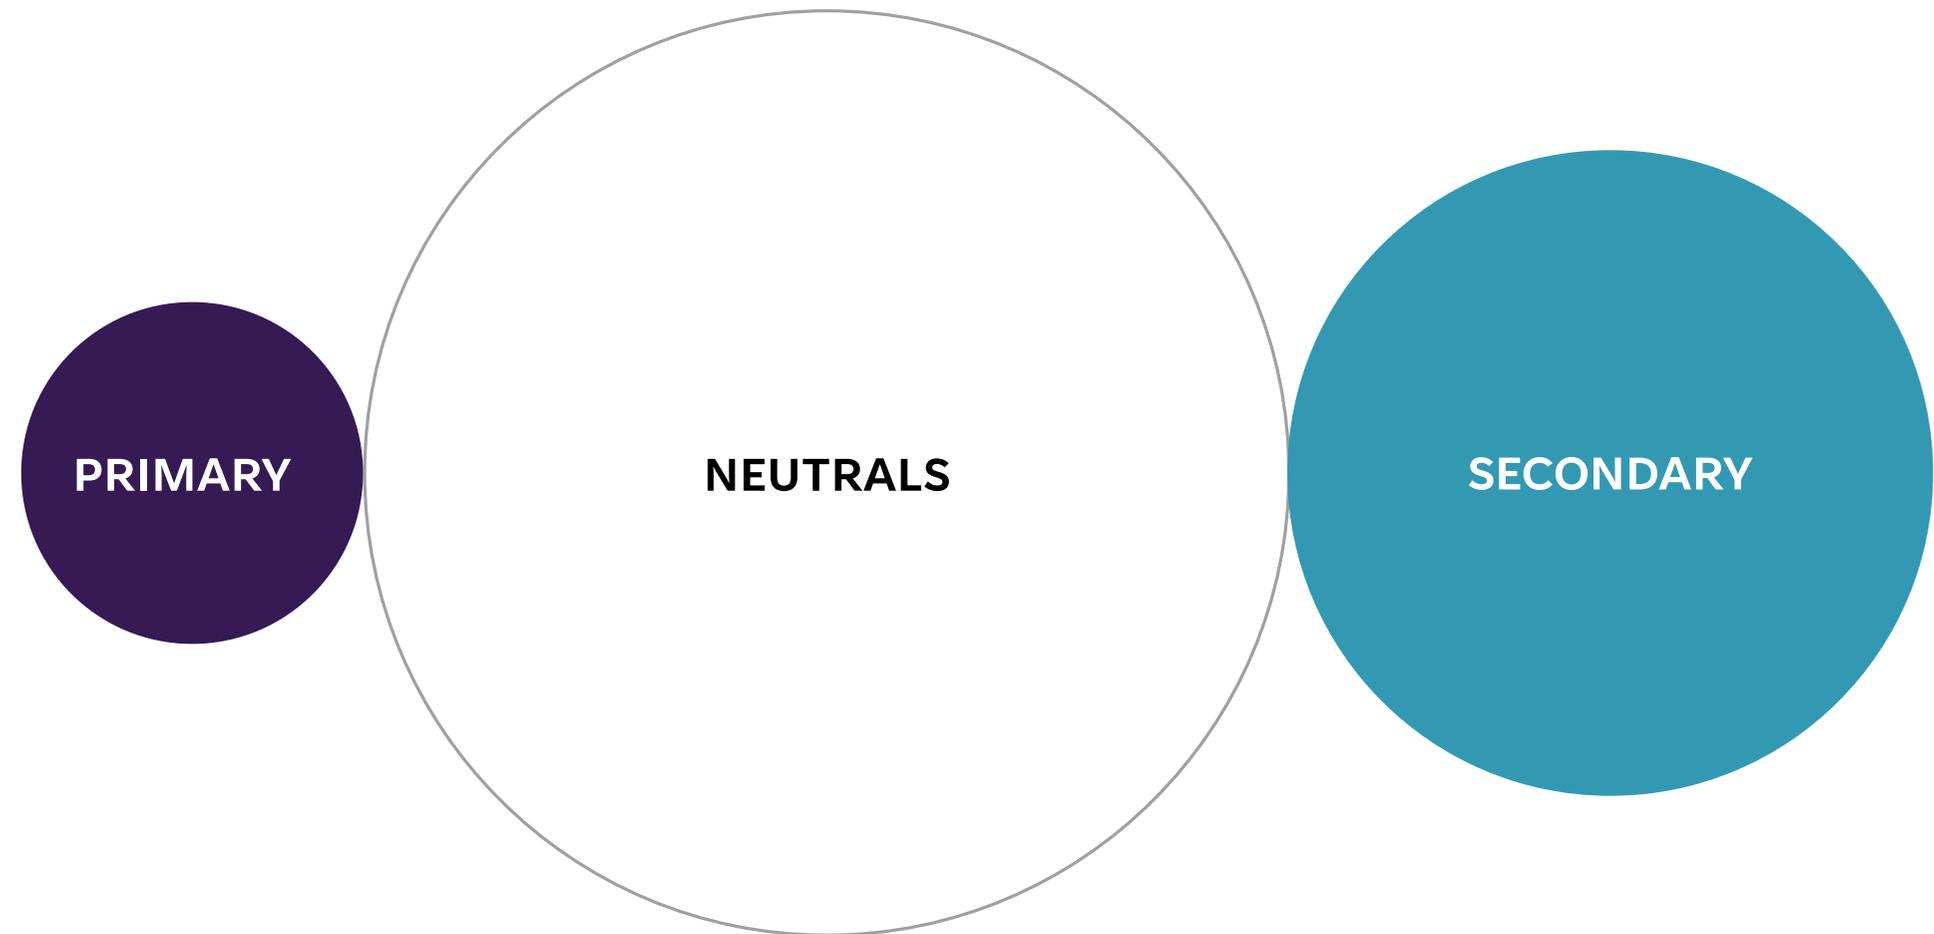

Presence of Wipro Blue

In our Communication materials, a little bit of Wipro Blue goes a long way. Use Wipro Blue to tie back to our brand but only by the appropriate amount.

Be Mindful of the amount of Wipro Blue in comparison to background colors (most often white) in any visual application.

Use the following proportion when creating brand communication materials.

Usage Proportions

In executions, Wipro is a Deep Blue / White brand with all other colors and tones available to complement our primary brand palette.

Of course, Wipro Blue also plays a major role as the logo will most often be seen in this color.

It is important to follow the rules of these proportions when creating any brand communication in order to maintain brand consistency and recognition.

Secondary Colors

Primary Colors

Hello I'm **Proxima Nova**, the official primary font from our brand.

Aa Bb Cc Dd Ee Ff Gg
Hh Ii Jj Kk Ll Mm Nn
Oo Pp Qq Rr Ss Tt Uu
Vv Ww Xx Yy Zz

0 1 2 3 4 5 6 7 8 9
!@#\$%^&*()

Unite, Chat, Thrive.

Connecting the World, One Authentic
Conversation at a Time.

Proxima is our display font used for feature headings and subheadings; for example: document titles, section dividers, article headings, environmental graphics.

Hello I'm **Wipro Akkurat**, the official secondary font from our brand.

Aa Bb Cc Dd Ee Ff Gg
Hh Ii Jj Kk Ll Mm Nn
Oo Pp Qq Rr Ss Tt Uu
Vv Ww Xx Yy Zz

0 1 2 3 4 5 6 7 8 9
!@#\$%^&*()

Unite, Chat, Thrive.

Connecting the World, One Authentic
Conversation at a Time.

The typeface Wipro Akkurat is used for all
secondary level copy.

Hello I'm **Tenorite**,
the official powerpoint font from
our brand.

Aa Bb Cc Dd Ee Ff Gg Hh Ii Jj Kk
Ll Mm Nn Oo Pp Qq Rr Ss Tt Uu
Vv Ww Xx Yy Zz

0 1 2 3 4 5 6 7 8 9 !@#\$%^&*()

For Microsoft Powerpoint, use Tenorite which is the default/primary font on Wipro's Corporate Presentation templates – Denali & Fuji (available at <https://www.wipro.com/brand-toolkit/>)

Hello I'm **Arial**,
the official Microsoft application / on-
screen applications font from our brand.

Aa Bb Cc Dd Ee Ff Gg Hh Ii Jj Kk
Ll Mm Nn Oo Pp Qq Rr Ss Tt Uu
Vv Ww Xx Yy Zz

0 1 2 3 4 5 6 7 8 9 !@#\$%^&*()

For any other Microsoft application / on-screen applications (including internal communication), use system font Arial is used in place of Wipro Akkurat.

These fonts are available on most Windows, Macs and mobile operating systems, which preserves document consistency and fidelity to all users.

Crescent

The crescent of dots is used as a graphic overlay on images or as a design element to create visual interest.

Wipro Engineering Edge.

In the search for growth, efficiency, and long-term sustainability, organizations are turning to new digital technologies to build new revenue streams, operate more thoughtfully, and accomplish more with less. Engineering is vital to maintaining a competitive edge — and technology is the medium to service needs in hyper-competitive markets. Business leaders seek to invest across areas of Cloud, AI, connectivity technologies, silicon chips, and smart manufacturing. Digital engineering is expected to account for 50% of overall engineering spend by 2024, forming the core of engineering budgets.

Photography.

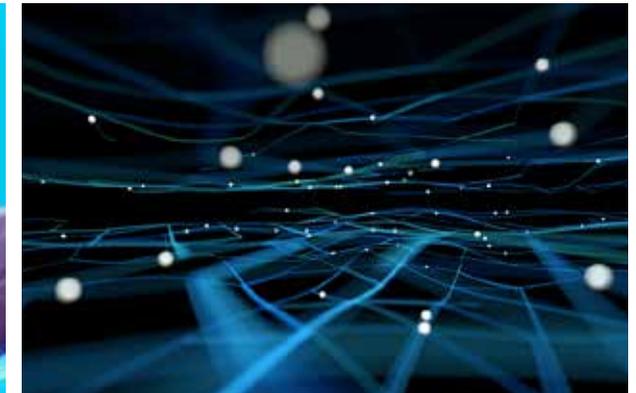

Stock Imagery

Keep stock imagery simple and focused. Put diverse people in real-life positive situations. Avoid imagery of people looking at camera. Wipro products and services touch the lives of people all over the world. As a general rule, stock imagery must not be overtly styled or posed. It should feel documentary and reportage in style and subject.

Abstract

Using abstract images can help articulate more complex ideas, give a sensibility visually, and help guide the story telling process.

Video Production.

Videography

Videos are one of the most effective ways of engaging and communicating a story to the desired audience.

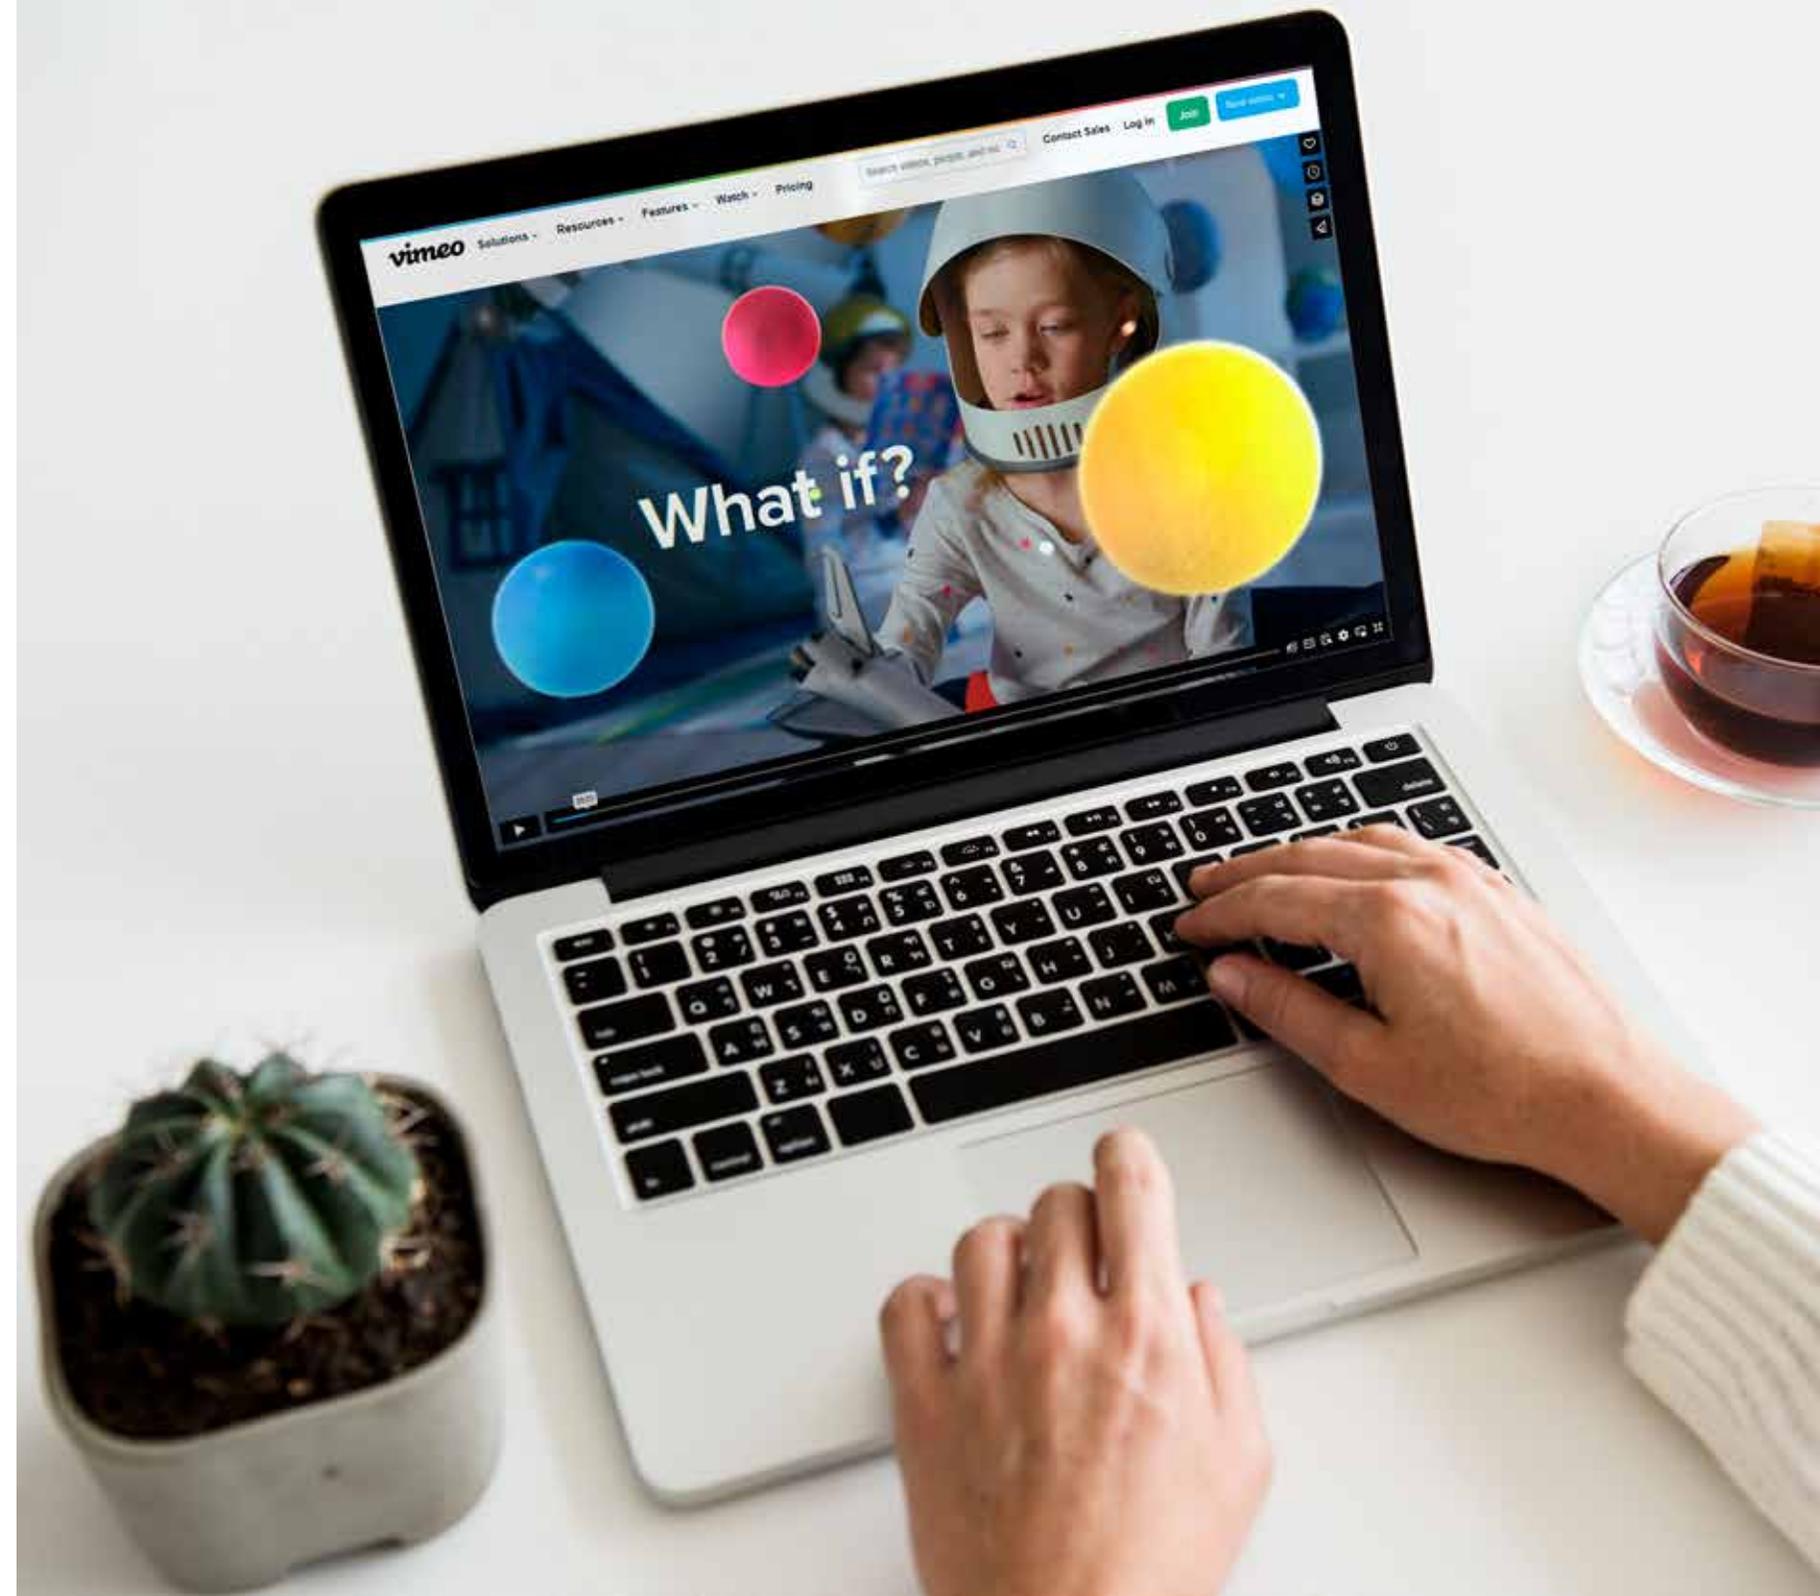

Checklist for Brand Compliance:

- Use Intro/Outro animations of Wipro logo
- Voiceover, if being utilized, needs to be concise, and contextual to the target audience with regards to accent.
- Recommended Video Duration is 30sec to 2min to retain better attention from viewers
- Ensure correct logo usage
- Ensure correct grammar/spelling and avoid typos
- Colors, Fonts, Graphic/Design Elements remain the same as listed in previous sections
- Add captions, appropriate Title, Description, and Thumbnail image when hosted on a platform.

Examples:

1. [Ambitions Realized • “About Wipro” Sales Film](#)
2. [E.ON Partnership with Microsoft and Wipro](#)
3. [Topcoder & NASA • Ambitions Realized • Case Study](#)
4. [Nitin Parshwanath: My Ambition](#)

A snapshot from [Wipro Ambitions Realized • Brand Film](#) ►

Making Films for Wipro

Developing a Script

A handful of tips:

1. Use conversational language. Avoid jargon.
2. Be as thorough as possible. Describe every aspect of the video.
3. Keep your audience and platform in mind.
4. Script every word. Describe all b-roll and graphics.

Branding

Design checklist for videos to be distributed on Wipro channels (either Wipro or partner-produced)

- Wipro logo intro/outro logo animations
- Wipro-branded video

Design checklist for videos to be distributed via partner channels

- Usage of correct Wipro logo

Production

Composition and blocking

When filming b-roll

When filming a sequence, look for one or two interesting camera angles. It adds production value and gives your viewers a more full perspective of the action in your story. Leave space in your composition for added graphic treatments if needed.

What is “good?”

When filming sound bites (talking heads)

Use proper lighting and sound. Make the subject comfortable and when possible, place the subject within a setting that helps to illustrate the story. Wipro prefers the subject looks directly to camera unless an on-camera interview is being conducted.

Production

Lower Thirds

Wipro uses the Proxima Nova font for our lower thirds-Bold weight for the person's name and Regular weight for their title.

Please refer to the brand download center for the Wipro lower thirds animated template. Choose brand colors which contrast yet compliment the subject's background.

What is “good?”

Production

Poor Choices of Stock footage

Avoid poor-quality, dated and overly-stylized stock clips.

Be sensible about the imagery you select for Wipro film project. Avoid content which makes our brand look foolish or tacky. Spend time seeking out the best clip for your particular project.

Avoid messy data centers and people looking straight to camera.

Never use clips with generic pie-charts.

Handshakes can look cliché and dated.

Stay away from people being silly or randomly pointing.

Diverse image, but the illustrations on chalkboard are general and non-specific.

Poorly lit and includes generic pie-charts and infographics.

As cities grow and develop, ensure the skylines you include are up-to-date..

Production

Good Choice of Stock footage

Keep stock footage simple and focused. Put diverse people in real-life positive situations. Avoid footage of people looking at camera. Wipro products and services touch the lives of people all over the world.

✔ Do this.

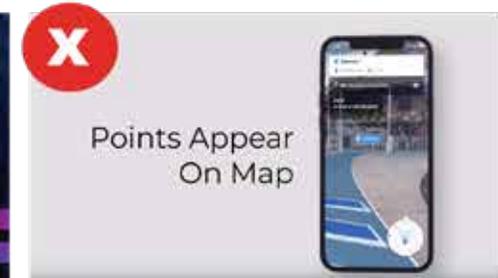

Graphics must be consistent with Brand Guidelines

We wish to ensure consistency across all Wipro films/videos/animations/motion graphics developed by agencies, production companies and internal employees.

Inconsistent graphic elements, colors and fonts diminish Wipro's brand identity. Refer to font section for Wipro approved fonts.

Avoid Dissimilar text and graphics

Discontinued lower thirds

Production

Reference Videos

These are examples of the types of videos created at Wipro. Click on the links to view.

Whether you are creating a promotional film, commercial/advert, case study, executive interview, training film, product launch or experiential content, the same production rules and brand considerations will generally apply.

Please visit: wipro.com/brand-toolkit/ to download lower thirds, logo lockup templates, logos and logo animations.

Partnership story. Be sure to include logo lockups at beginning & end
[Unleashing Customer Service Excellence at Yamaha](#)

Production

Wipro is committed to inclusivity and accessibility. According to the World Health Organization (WHO), 1.5 billion people globally live with some degree of hearing loss. Deaf and hard-of-hearing viewers expect their content to include captioning.

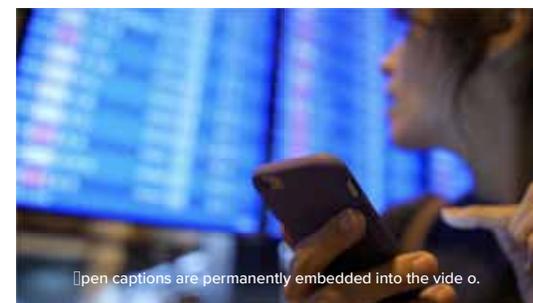

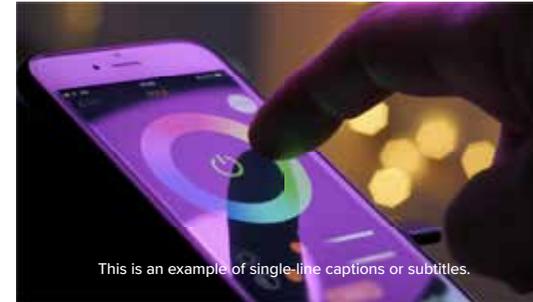

As a global company, captioning Wipro videos is a simple way to improve customer/employee engagement, SEO, foreign language reach and user experience.

Captioning & Subtitles

Open Captions are permanently embedded into the video and will always appear on screen.

Closed Captions are encoded into the sharing platform (Vimeo & YouTube) and can only be seen when activated by the viewer.

Subtitles are similar to captions but are intended for non-native language speakers. Same-language subtitles help viewers understand Wipro content and clarify confusing speech.

Creating Captions

Editing Software: Add captions by using the built-in automated captioning features on Adobe Premiere or FCP. They automatically convert dialog to text and create editable caption tracks. Check grammar and export an accurate .srt file and upload to Vimeo or Youtube.

Rev
rev.com is Wipro's recommended and trusted captioning/subtitling & transcription service.

Platform Generated Captions: Vimeo and YouTube will auto-generate captions, however the accuracy is seldom 100%. Ensure your videos have correct spelling and grammar before they're made public by making changes to the .srt or .vtt files.

For detailed information on platform captioning, .srt files, .vtt files, etc. please visit:

- [Vimeo Captioning](#)
- [YouTube Captioning](#)

Social Guidelines.

Organic Social Guideline

Size: 1080 x 1350px

Headlines: Proxima Nova Bold

Font Size: 70pt to 120pt

Sub copy: Proxima Nova Regular

Font Size: 40pt to 60pt

Logo Size: 280 px

Impactful / Inspirational Posts

For inspirational, introduction post or a new service and exciting news.

Photography: Dynamic images with a size relationship of vast and unending and/or microscopic and macro. Photography should support the copy.

Short headline: 5-6 words max.

Sub copy: Should be written in the post description and not in the graphic itself.

Portrait and Group Photo Posts

Photography: Proper lighting for the group shots or portraits.

Background/Graphic elements: People are silhouetted out so there's consistent brand background.

Short headline: 5-6 words max. (Quotes excluded).

Sub copy: Should be written in the post description and not in the graphic itself.

Organic Social Guideline

LOGO : USE THE SECONDARY LOGO ONLY*

FULL COLOR ON LIGHT BACKGROUND

WHITE ON DARKER BACKGROUND

*USE OF LOGO IS NOT MANDATORY BUT IF NEEDED PLEASE USE SECONDARY

CO-BRANDING

Wipro's strategic ecosystem partnerships are a select group of technology leaders. Together we accelerate breakthrough outcomes for our clients to address their business challenges.

Social media is used to promote our joint offerings, POVs and participation in industry and partner events. The post must be co-branded to include the Wipro primary or secondary logo locked up with the partner logo on the social post **(reference of secondary logo lock up variations on page 15)**. This increases Wipro's brand equity, increases awareness of our partnership and continues to position us as the industry leader.

We publish these on our owned channel and specifically the **Wipro Partner Handle**.

Corporate Posts

Dark version

Light version

Co-Branding

Photography: Professional, clear lighting, supports the copy.

Background/Graphic elements: 2 sets of graphic elements to create posts one in a dark version and one in a light version.

Short headline: 5-6 words max.

Sub copy: 10-13 words max. Should visually be lower in hierarchy so underneath the headline. It should be smaller in size and lighter in type Proxima Nova Regular.

Wipro Social video guidelines: (LinkedIn/Facebook/Instagram)

LENGTH:

- Preferred: Twenty seconds or less
- Acceptable: One minute or less
- May be Rejected: If over a minute and twenty seconds
- Will be rejected: Two minutes +

DIMENSIONS:

- Preferred: 1080X1350 pixels, also known as 4x5 aspect ratio, or “portrait.”
- Acceptable: 1080×1920 pixels, also known as 9:16 aspect ratio or “vertical”
- May be Rejected: 1920x1080 pixels, also known as 16x9 aspect ratio, or “landscape”.

CAPTIONS:

All videos meant for social must have accurate captions burnt in on the video. Font: Proxima Nova Regular. (Size 18-22 points.)

CONSENT FORMS:

Anyone who speaks and shows their name must have a signed consent form.

Events Guidelines.

Design Guidelines for Event creatives:

Logo

Usage: Secondary logo whenever possible

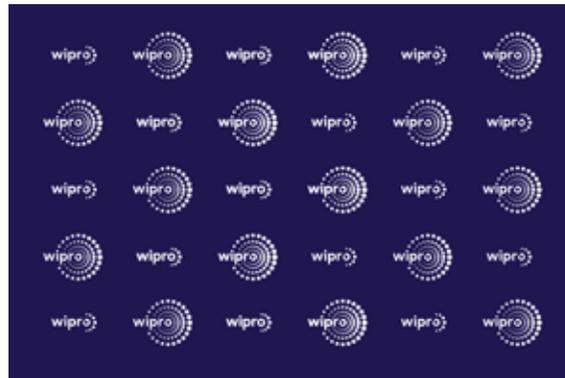

Hierarchy: Priority 1

Placement: Top

Colors

1. Wipro Blue/Brand Purple
2. White for type impact, clean modern feel
3. Secondary colors for the accents, highlights of design

Design Elements

Dots:

It should feel light with levels of transparency and have movement within the design

Image: Gartner booth

Design Guidelines for Event creatives:

Tone of Voice

Aspirational. Wipro's tone of voice implies doing something extraordinary in the world and connecting the reader with those ambitions. The reader should be made to feel part of that journey.

Typography

Fonts: Proxima Nova for primary and secondary level copy.

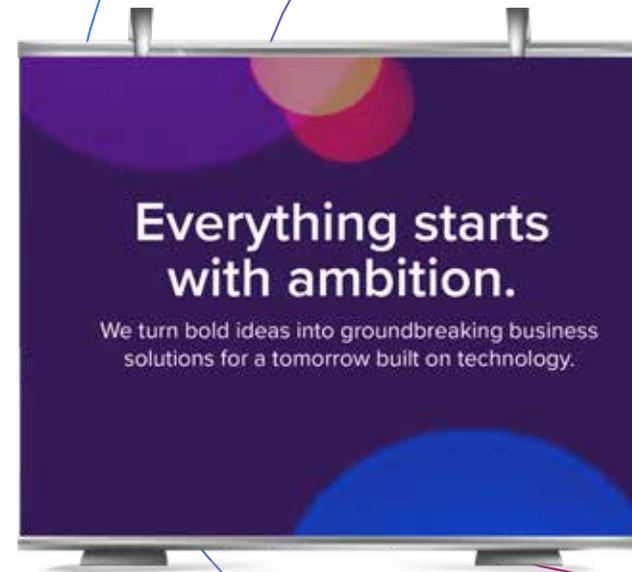

Sentence case where the copy is longer and more conversation (i.e. What if...)

For shorter and more direct copy, it can be in all caps.

White on dark background and Wipro Blue/Brand Purple on light backgrounds
Punctuation.

Photography & Illustration

Modern innovative impactful photography that strives to provide powerful and effective images to serve as visual tools for specifically targeted needs

What is “good”?

Hard to define, easy to recognize.

For marketing communications, Sometimes judgements may be subjective, but the principles remain the same: We must present a professional appearance in every public touch point. In marketing communications, this means quality images, clear and persuasive communications, adherence to brand and editorial standards and general good taste.

❌ Not this

Remove any garbage or mess.

Wrinkled, taped on sign. Instead, this should have a clean, neat and professional look.

✅ Do this.

Attractive image highlighting our brand in a professional manner.
